

# DELANO LAS VEGAS

Interior Space Divider  
Las Vega, Nevada, USA

**S-16**

*Shown below in bronze,  
standard mill finish*

Just outside of Della's Kitchen in the Delano, Banker Wire's S-16 woven wire mesh pattern in bronze was used as part of a decorative space divider. The bronze decorative wire mesh compliments the warm modern aesthetic of the hotel. S-16 allows for transparency between the two spaces, while providing the hotel with a way to close off the two areas as desired.

In September of 2014, MGM Resorts International rebranded THEhotel on the Las Vegas Strip to the Delano Las Vegas. The hotel underwent a massive redesign of all 1,100 and also added new bars, restaurants, lounges, and nightclubs.
